### **GRIDCo RESTORES TAKORADI – ESIAMA TRANSMISSION LINE**

**Takoradi, April 05, 2022** --- There have been intermittent power outages affecting residents of Nzema East, Elembele, parts of Ahanta West and Jomoro for the past three weeks. The last of these incidents happened on **Sunday April 3, 2022**. Our maintenance team received a distress call from a resident alerting of a fire on a faulty insulator on one of our towers. The team responded swiftly to rectify the fault and has since restored power.

GRIDCo is currently putting measures in place to ensure improved reliability of power supply from the Essiama Substation, which serves the affected communities.

Any convenience caused as a result of these outages is deeply regretted.
