

## SCOPING NOTICE

Ghana Grid Company Limited (GRIDCo) proposes to construct, operate, and maintain a double circuit high voltage 330kV transmission line facility of approximately 375km to facilitate power exchanges with neighbouring countries and provide electricity to eligible communities. The 330kV transmission line route will cross the Northern and Savannah regions, from the border with Togo to the border with Côte d'Ivoire, including the construction of a new 330kV substation near Bimbilla and connection to existing substations in Adubiyili (Tamale II). The development is known as “**330kV Median Interconnection Project**”.

The proposed undertaking would be located within the following districts of the Northern Region: Nanumba North Municipal, Nanumba South, Zabzugu, Tatale Sanguli, Tolon, and Tamale Metropolitan, and the Savannah Region: Sawla-Tuna-Kalba, West Gonja Municipal, Central Gonja, and Northeast Gonja. A total of thirty-six (36) communities located within these districts may be affected.

Notice of the proposed transmission line project is hereby served for public information, as required under the procedures for the conduct of ESIA in accordance with Regulation 15(1) of LI. 1652. Any person(s) who have an interest, concern, or special knowledge relating to potential environmental and social effects of the proposed undertaking may contact or submit such concerns, etc., to:
