SYSTEM DISTURBANCE

The Ghana Grid Company LTD wishes to inform the public that on Sunday March 3 2024, due to a fault on an equipment at the Mallam substation which occurred at 20:38h power supply to some customers in the western part of Accra, Winneba and Takoradi was interrupted.

Our engineers have quickly isolated the faulted equipment for further investigation.

Restoration of supply to affected customers started immediately. As at 22:30h, power supply to most of the affected customers had been restored. For areas without power supply, engineers are working tirelessly to restore power once the faulted equipment is fixed.

GRIDCo sincerely apologises to all who were affected by the power supply interruption.

Note to Editors:

Ghana Grid Company LTD. (GRIDCo) was incorporated in December 2006 to carry out the economic dispatching and transmission of electricity from facilities of wholesale suppliers (Independent Power Producers [IPPs]) to bulk customers and distribution utilities in Ghana and West Africa. The Company became operational on August 1, 2008, following the transfer of the Transmission System Department and its core staff from VRA to GRIDCo. It operates the National Interconnected Transmission System (NITS). GRIDCo currently transmits electricity to thirty-one (31) Bulk Customers and Distribution Utilities from eleven (11) Wholesale Suppliers, including the Volta River Authority (VRA).
